Самый сильный

Сказка по мотивам нанайского фольклора в обработке Дмитрия Нагишкина

Побежали зимою нанайские ребята на лёд кататься. Сначала играли, катались. Потом подрались.

Один мальчик — Намека — побил другого — Курбу. Побил он Курбу и стал хвастаться: — Я самый сильный тут! Все вы должны мне поклониться!

Тут поскользнулся Намека, упал и разбил себе затылок. Говорит ему Курбу: — Вот, значит, ты не самый сильный, если лёд побил тебя. Видишь — кровь идёт. Поклонись льду!

Спросил Намека лёд:

— Эй, слушай, лёд, — есть ли кто-нибудь сильнее тебя?

— Есть! — говорит лёд. — Солнце сильнее меня. Как пригреет оно — я таять стану! Поклонись солнцу!

Пошли мальчишки к солнцу. Долго шли. Наконец, пришли. Говорит Намека солнцу: — Эй, отец! Я побил Курбу, лёд побил меня, ты растопишь лёд — ты, значит, сильнее нас! Вот пришёл я тебе поклониться!

Подумало, подумало солнце.

— Туча сильнее меня, — говорит оно Намеке, — как закроет она землю, станет холодно и лучи мои сквозь неё не пройдут...

Пошли мальчишки к туче.

Забрались на высокую гору. Вокруг — туман, сырость, холод. Пока до тучи добрались, мокрые стали, ледяной коркой покрылись. Говорит Намека туче:

— Слушай, мать! Я сильнее Курбу, лёд сильнее меня, солнце сильнее льда, ты сильнее солнца — значит, ты сильнее всех. Вот пришёл я тебе

поклониться!

Только туча собралась ответить, — подул ветер, загулял вокруг, засвистел, зашумел и рассеял тучу.

Вот только сейчас холодно, сыро было в двух шагах ничего не видно, и вдруг стало тепло, светло, ударила радуга, солнышко засияло и весь Амур — от верховьев до лимана — видно стало, как на ладони. Закричал тогда Намека ветру: - Слушай, ветер! Я побил Курбу, лёд разбил мне затылок, солнце растопило лёд, туча закрывает солнце, ты разогнал тучу. Ты, значит, сильнее нас всех. Вот кланяюсь я тебе!

Поклонился Намёка. А Курбу спрашивает у ветра: — Ты гору сможешь ли сдвинуть с места?

Стал ветер дуть. Но сколько ни надувал он щёки, гора стояла, как прежде. Только песчинки с её вершины полетели.

— Э-э! — сказал Намека, — много же тебе времени нужно будет, чтобы гору передвинуть с места на место! Гора-то, выходит, сильнее тебя!

Поклонились мальчики горе.

— Гора, гора! — сказал тут Намека. — Ты, что ли, сильнее всех на свете?

Покряхтела гора, подумала.

— Нет, — говорит, — дерево сильнее меня. Оно растёт на моей спине и своими корнями разрывает меня. Оно и от ветра меня защищает!

Поклонился Намека дереву:

— Эй, слушай, дерево! Я побил Курбу, лёд побил меня, солнце побил лёд, туча побил солнце, ветер побил тучу, гора побил ветер, ты побиваешь гору. Ты, что ли, сильнее всех?

Зашумело листьями дерево.

— Да, я сильнее всех! — говорит.

— Ну, это ты врешь! — сказал в ответ Намека. Взял в руки топор и срубил дерево.

Тут все поклонились Намеке: и гора, и ветер, и туча, и солнце, и лёд.

С тех пор и пошло считаться, что человек сильнее всех на свете.
